

# Musculoskeletal Ultrasound Services

## **Technician Leasing**

Every ultrasound scan is completed by an AROMS trained technician who will utilize the “Jablon Protocol”. These are procedures that have are endorsed by the American College of Radiology and will assure consistency in reporting test information.

### **Rates:**

\$1,200.00 per day (8 hour day) with 30 minute lunch. Not to exceed 30 body scans per day.

\$625.00 per day (4 hour day) with 30 minute lunch. Not to exceed 16 body scans per day.

**Rates: Per hour \$175.00 + traveling expenses**

*(If traveling more than 15 miles outside of Westlake Village, California).*

## **Wet Read Reports**

Information necessary to establish a patient treatment plan is critical. At the end of each day every patient scan will receive a technician summary or “wet read” that will become part of the file. This will be followed by a full Radiology report. This service is available at no additional charge.

## **Radiology Reports**

After a complete review of the films and technician notes a full patient report will be supplied usually within one week.

**Rate: \$40.00 per radiology report.**

## **Personal Training/ Shadowing**

Come into one of our busy clinic days see actual studies being done. See the different pathologies and Jablon protocol in action. Our technicians have high volume at their testing locations. Call our office for availability and to go through the proper application process for approval.

**Rate \$175.00 per hour (not to exceed 3 hours)**

## **Ultrasound Equipment**

We are ultrasound dealers with several companies around the United States, therefore we will be able to connect you with the best possible price and model you are looking for. Musculoskeletal Ultrasound has been our expertise for the past 20 years. Please call our office for a quote.

## **Education**

We currently offer training. Our hands on weekend workshops are extremely helpful for beginners and for advanced students. Our class room capacity are no more than 12 students per workshop. We do this so that every student gets a one on one with the instructor. Our instructors are world authorities on Musculoskeletal Ultrasound. Please go to the home page and Click on our EDUCATION tab for upcoming classes.
