Presents:

Evening hours and Dates for Musculoskeletal Ultrasound Hands-on Training

Michael Jablon, RMST will be your instructor. He has been performing musculoskeletal Ultrasounds since 1991. He has personally performed over 50,000 patient scans. He has created the "Jablon Protocol™" which is an easy step by step protocol of all extremities. In his evening classes he will go through these protocols and share his wealth of knowledge over the years in the field of musculoskeletal ultrasound. Please call our main office to reserve your class. Below are the dates, times and subjects in which he will be training. Thanking you kindly for your interest.

Dates	Time	Subject
